

FIGURE 1

FIG. 1 is a block diagram of a network system. The network system includes a server computer (20b) and a data storage unit (70). The server computer (20b) is connected to the data storage unit (70) via a double-headed arrow. The server computer (20b) is also connected to a communications network (80) via a lightning bolt symbol (82). The communications network (80) is connected to three client computers (20a) via lightning bolt symbols (82).

ATB35 - Articulating Endoscopic Linear Cutter

Add to Order

ENDOPATH ETS-FLEX Articulating Endoscopic Linear Cutter loaded with a standard (blue) cartridge delivers two triple-staggered rows of staples while simultaneously dividing the tissue between the rows. An articulation lever enables bilateral movement of the instrument jaw. The instrument has a staple line that is 35mm long and a cut line of 22mm long. The instrument is reloadable with either a standard (blue/TR35B) or Vascular (white/TR35W) reload. The instrument can be reloaded seven times for a maximum of eight firings per instrument. The instrument's safety lock feature is designed to prevent a spent reload from being refired. A staple retaining cap on the reload protects the staple points during shipping and transportation.
